FEATURES

Instant & Marvelous Improvement

Upfront Nanotech

A revolutionary dermal delivery platform achieved by patented electrospinning technology, transforming active ingredients into soluble nanolayers

10⁻⁹m

Faster Absorption

Upon spraying of Intensive Mist, the nano layer transforms into a nano solution, allowing for repaid absorption into the skin

100% Premium Collagen

100% Pure active ingredients
99% Collagen originated from Rousellot &
1% Hyaluronic Acid only

100%
PREMIUM

Deeper Penetration

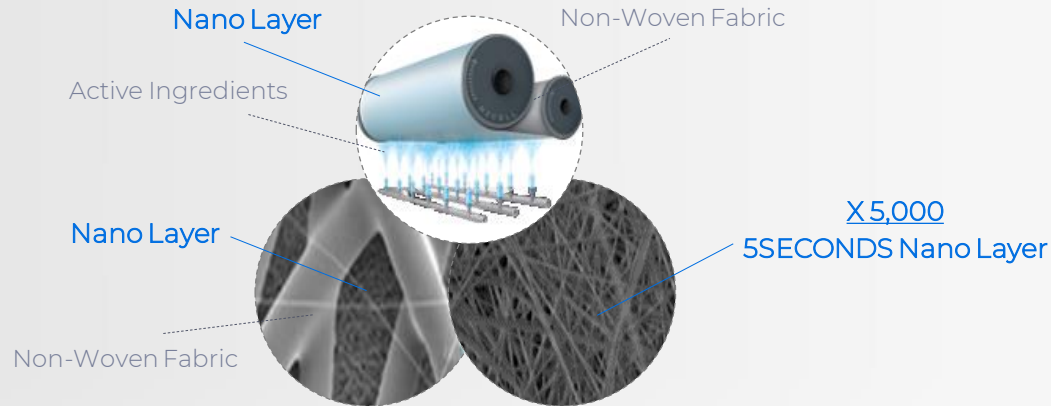

The absorbed nano solution, with particles much smaller than creams or serums, delivers active ingredients deep in the dermis

NANO LAYER

Cutting-edge electrospinning technology converts specific active ingredients into the most rapid and non-invasive dermal delivery platform available.

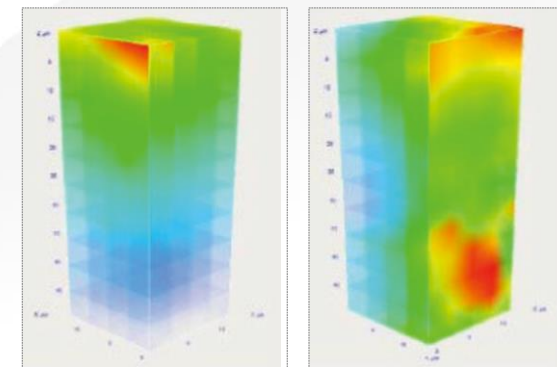

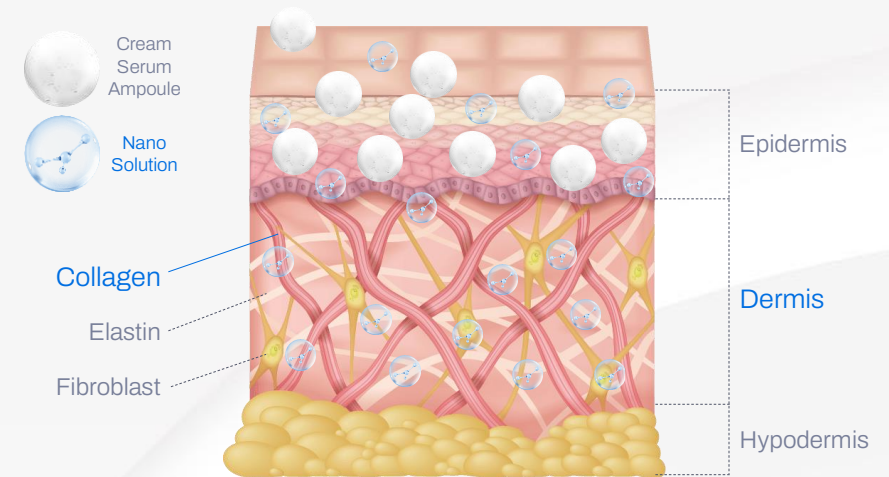

The 5SECONDS Dissolving Patch comprises three layers. The white nanofiber layer is as thin as 1/500th the thickness of a hair.

NANO SOLUTION

The nano layer transformed into the nano solution by simply spraying of Intensive Mist. Securing the swift and deeper delivery of active ingredients into the dermal layers of the skin within seconds.

Niacinamide & Adenosine

CICA DISSOLVING SET

⑤ x Dissolving Patch
① x Mist ① x Serum

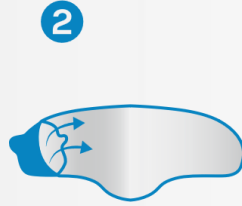

HOW TO APPLY

Spray Intensive Mist slightly. Dab gently until absorbed.

Remove Translucent Backup Film.

Place White Nanofiber Patch toward the face. Apply it firmly.

Peel off Pink Protective Fabric carefully.

If any residue of White Dissolving Layer remains, spray Intensive Mist again on it.

Dab gently until absorbed. Apply ample Intensive Serum.

Tip

Suitable for all skin types.
Use nightly for optimal results.
The immediate improvements can often be observed after a single application.
Enhanced effects may be noticed with consecutive use over 5 days.
Results typically last 2-3 weeks.
In the morning, use the Intensive Mist and Serum. These products work synergistically to enhance effectiveness.
Please note that individual responses may vary.
